PROFILE

Developer with more than 1 year of experience. Having commercial experience in several small freelance projects, I'm always looking for the best solution using the latest technologies.

WORK EXPERIENCE

Freelancer

Freelance   since July 2023

- Developed several business card sites for promotion, which allowed my customers to simplify navigation through their social networks for visitors.

PROJECT EXPERIENCE

Portfolio Site   GlitHub

React, TypeScript

- Used React Transition Group for better user experience through smooth animation.
- Routing is implemented using the React Router Dom library.
- The Swiper library was also used to create the slider.

Spending Manager   GlitHub

React, JavaScript

- Styled Components were used for styling.
- The i18next library is included for internationalization.
- In this project, custom UI components such as buttons, inputs and selects were developed.

Lending Page   GlitHub

Html, Scss, JavaScript

- In this case, the BEM methodology was used to create reusable blocks.
- The layout is made using the Flex-box approach to create a responsive and adaptive interface.
